Branch Local Boards

Subject

Concerning the Gorisette Bhavi in the Bangalore City.

Letter dated the 24th Nov 1903 from Mr A. Gopalacharlu of the Srinivasamandiram and Charities, Bangalore

On the 14th Jany 1900 Mr Gopalacharlu requested that the well in question might be made over to the Mandiram under certain Conditions

2. On the application being forwarded to the Presdt of the City Municl Comm., for report, he reported that the Board were not willing to comply with the request of Mr Gopalacharlu as the well was being used by many persons. This fact was communicated to the Applt: Comm by Endorsement on the 30th October 1900.

7 Copy

7 Nov 2

7 Nov 6

3 Rev Gopalan Nair states that on his agitating the Municipal Board they appointed a watchman to guard the well in question, that they kept the it clean and tidy for some time and fixed also a Regn. board under the Signature of the President cautioning people not to contaminate the water, that for the past some months the watchman has been withdrawn by the Board and that, consequently people have begun to dirty the water by washing foul linen, bathing cleaning kitchen smoke and soon. He adds that "the Mundéaun" has no Kaliyani of its own and that water for Abhisheka is being brought from this well and prays for some definite orders on the Subject

Submitted for orders.

The President's report in

+ C.M. Docket no 2299/303-96 of 15th Decr 1909

Flag D

⊕ Letter no 158 of the 21st Decr 1909;

the matter having been called for ⊕ that Officiating that no watchman had been employed at any time for by the Municipality exclusively for the purpose of watching the pond in question, that the watchman who was looking after the Dharmbodhi tank and the pond was done away with, as the water of the tank is not being utilized for drinking purposes, and that the pond being a public well resorted to by many persons the exclusive use of it by the Brahmins alone cannot be arranged to the inconvenience of the public in general He ~~also~~ adds that the City Police has been requested to see that the water of the Pond is not soiled by those who resort to it, that the Conservancy staff also has been directed to keep the well clean and

x that a sign-board has also been put up near it

7 It is however respectfully submitted that Mr. Gopalacharlu's contention is more on behalf of the whole orthodox section of the city population than of the Brahmin community in particular. He lays stress on the long established custom of using only springs waters ~~from a river~~ from a river, a tank or a pond for purposes of worship (~~Devi~~ Devi P.) and being himself an orthodox Brahmin and manager of a temple naturally anxious that Gorisetty 'Bhavi', which is the only Pond in the city should be kept free from dirt. Having complained the untidy condition in which the Bhavi is kept, Mr. Gopala charlu says as follows:-

a There are still people who

are kept often using spring water alone for purposes of worship and other religious ceremonies. You very well know that every important temple has a "Kallayani" of its own whose water is used daily for "Abhishekam" and for this purpose of the religious City of Bangalore this (Gorisetty Bhavi) is the only "Kalyani and if its water is made unfit for use and the Municipality takes no interest to conserve it, you can realize what would be the inconvenience of men who, rightly or wrongly are still not reformers"

I beg I may be excused when I say that I am a little interested in the conservation of this particular pond, as the Mandi Ram has no other recourse to look to

for its [illegible] water than
this source of supply".

8 Now that the Dharmambudhi
tank rarely fills & retains water, it is nothing
strange that want of water suited
for purposes of worship according
to Hindu ideas should be felt by
the residents especially of Divs: II
and III Divisions of the City. unless
the said Bhavi is properly conserved,
and its water kept clean. The President
is not quite in the right when he
says that "there is no precedent
to employ a separate watchman for
a single well". A reference to the
Budgets for 1896-97 and previous years
will show that there were no less than 10
men employed by the Municipality
to look after each the 10 wells and karanjias

in

in the City which were the following:-

1 Kumbargundi
2 Dharmambudhi Tank
3 Chikpet Karanji
4 Calbagh well
5 Karanji tank
6 Fort Karanji
7 Mc School do
8 Hutchanna's well
9 Yaramandlepet do
10 Goripalya do

The watchman for Dharmambudhi tank was also looking after the Goripalya Bhavi under reference till the current year, when his services were dispensed with on the ground that the water of the Dharmambudhi tank is not being used for drinking purposes. Further the Boards' resolution is evidently based on a misapprehension that the Bhavi is asked for the exclusive use of the Mandiram

9 In such circumstances it is respectfully suggested that the Bhavi may either be either the President may be directed to keep the

Bhavi well conserved by repairing the dilapidated walls round it and deputing one of the servants of the Municipal garden to look after it if the employment of a separate watchman is not feasible just at present, or the Bhavi itself may be transferred to the Control of Mr. Gopalacharlu, ~~who~~ & who is willing to maintain it in a good condition. Necessary conditions being of course, imposed on such transfer so as to guard against creating exclusive right of any particular religious institution over it, tho' the prospects of transferring it seems doubtful.
Submitted for orders.

The decision
turns upon the
2nd Counsellor

11 It is not a building
matter at all. What there is
it to be used for, if not
for washing &c? If the
Gopalachariar's wants it
to be canvassed, why should
he not pay the balance of
the valuation, the inspection
and management of the
whole continuing to remain
under the Board - & the
Secretary to attend
that we have a right
to interfere in the manner
proposed. ll
27-1-04

12 VBB (1) Please answer the 2nd Q[uer]y above by referring to the Pt-Reg[ulation] No. 5.
I see that in page 8 of this Note it is
(3) said that Mr. Gopalachariar is himself
willing to maintain the pond in
good condition. Where does he say so
ll 5/2/04

13. In reply to the second Commissioner's query whether the Government have a right to interfere, it is submitted that under the Municipal Regulations the Government have no power either to cancel or to modify the Board's resolution.

14. With reference to the Offg: Secretary's query it is submitted that Mr. Gopalacharlu has expressly stated in his letter dated the 14th Jany 06 (vide heard of flag A) that he would maintain the ground on which the Board's resolution was passed, though he does not appear to be willing to do so now.

Submitted

Sd/ 5/2/07 JB

10/2/07

It is my humble opinion that it is undesirable to make over the maintenance of the well to Mr. Gopalacharlu. He no doubt promises to make improvements but he will be obtaining rights which will eventually prove prejudicial to the interests of the general public

The

The President has suggested that arrangements have been made for the superintendence of the pond, and I think the matter may be allowed to stop with this ~~case~~. The President's letter may be recorded and an Exit given to Mr Gopalachari

The President may be asked to re-build the walls which are in a dilapidated condition

SCALE

C. Srinivasa Iyengar, Esqr.,

Secretary to the Government of Mysore,

General + Revenue Departments,

Bangalore.

Sir,

I have the honor to lay the following proposal before you for your kind consideration and favourable orders of the Government.—

2. I believe, it must have been brought to your notice, or you must have noticed yourself the most dilapidated and the utter

deserted it. Owing to the great boon the Government have conferred on the people in providing at their very doors, the most wholesome and pure water for drinking, the people too, have given up the well. Consequently the well is now deserted and people are clandestinely using the water for all kinds of insanitary purposes; and the water is also getting dirty. At times, discontented individuals, have found a cold grave here, and recently we had one or two inquests. Owing to the dried state of Dharmambudi the well has also lost even its source of water supply.

3. I need hardly say, that there is a great

necessity

utter neglected condition of the well, known as Goresetti Bhavi, by the side of the Sulurambudi Tank near Cossparpett Police Station Years ago the well was in a very good condition and most of the people this side, used its water for drinking purposes. When Mr. A. Srinivasachalu, B.A., was in Charge of the Vice Presidentship of the Municipality, I remember, he took over the well, and set the whole thing right at a great cost, and made the well a public reservoir, maintaining also a watchman at the cost of the municipality. It was so for sometime, and about four or five years ago, the municipality appears to have

deserted

for Lt. Prasad

necessity for the preservation of such a well in the city for various reasons the chief one I beg to point out is religious. When we had plenty of water in the Dharmambudi, we use to fetch our — Abhishika water from it daily for some of our temples — Mandiram included. But as there being no water in it now, we are obliged to use the water of this well, which as above noted, is not all clean and good.

4. It is therefore my earnest desire that if you can induce the Government to make over the well to the Mandiram, I am not only prepared to

to maintain it, but am anxious to improve it thoroughly and make the same, a place worthy of the city. I propose to build up a wall to the back, and to build up a neat gate-way in the front, covering up the little path on the side of the steps from the Tank Bund, and turning it into a neat garden of Tulasi & Bilva, &c. I also propose to make four squares in the four corners of the bell in the top, and ornamentally flower-plant them. I propose to have water communication as well - to maintain always a fresh and pure supply of water.

Lastly

Lastly it is my wish, to build a small and open ornamental iron-pillared Vasantotsava mantapa for the purposes of Hunkarabhisheka of God. The mantapa will also be a platform for open air meetings and other gatherings. The bell will be public property belonging to the Mandiram, and I or my successors in office shall have no power of alienation. They will have simply the management of the bell and its round abouts as above indicated

5. For reasons thus explained above I beg you will not only give this matter

a

a serious and favorable Consideration, but
hope you will be pleased to move the
Government to grant my prayer in
public interests.

I beg leave to remain,

Sir,

Your most obedient servant,

A. Shadbolt

SRINIVASA MANDIRAM,

Bangalore City, 24th Novr, 1903.

Gorisetti "Bhavi" or pond to the East of the Dhurmambudi Tank.

To

The Secretary to the Government of Mysore,

General and Revenue Departments,

Bangalore.

Sir,

In 1900 some correspondence took place between myself, the Government and the City Municipality, Bangalore, regarding the well or pond noted on the margin. The Govern-ment referred my petition to the Board, which passed a resolution to the effect that they were unable to make over the pond to the Mandiram, but that they would themselves undertake its proper conservation. The resolution was only a paper resolution for months. My letters however were many to the Municipality and after much agitation, the Board appointed a watchman to guard the water from being polluted with. They kept the whole place clean and tidy for some-time and fixed also a sign-board under the signature of the President cautioning people not to contaminate the water. For the past some months the Board appears to have withdrawn the services of the watchman, allowing the well to go again into ruins. People have already begun to dirty the water by all kinds of process---washing foul linen, bathing, cleaning kitchen smoke, and so on. Though the matter was twice reported to the Police, whose Station is only at a few yards distance--- they seem to be in-different.

There are still people who are bent upon using spring water alone for purposes of worship and other reli-gious cermonies. You very well know that every important temple has a "Kallyani" (ಕಲ್ಯಾಣಿ) of its own whose

water is used daily for "Abhisheka"; (ಅಭಿಷೇಕ), and for this portion of the religious city of Bangalore, this is the only (ಕೆರೆಯಾಗಿ) and if its water is made unfit for use, and the Municipality takes no interest to coserve it, you can realize what would be the inconvenience of men who are rightly are wrongly are still not reformers.

Ours is a Hindu Government. Both the Maharaja and the Dewan Saheb are interested in the purity of our religion. Myself being a person connected with the management of a temple, I beg I may be excused when I say that I am a little interested in the conservation of this particular pond, as the Mandiram has no other recourse to look to for its "Abhisheka" (ಅಭಿಷೇಕ) water than this source of supply.

Under these circumstances I appeal to the Dewan Saheb for the issue of some definite orders on the subject so that the Board may see how a large section of the community are suffering by their entire neglect to maintain this well as resolved, which they say is Municipal property and which they are not willing to part with.

I beg leave to remain,

Sir,

Your most obedient servant,

A. Subbalachari

No. 158 with 1 Enclosure 23

FROM

THE PRESIDENT,
Municipal Commission,
Bangalore City.

To

The Secretary to the Government
of His Highness the Maharaja of Mysore,
General & Revenue Departments,
Bangalore.

SIR,

With reference to your Official Memorandum no 2299 / 27 303-96 dated the 15th instant forwarding for report a petition from Mr A. Gopala Charlu of the Srinivasa Mandiram and Charities, Bangalore, regarding the employment of a Municipal watchman at the "Gori Setti Bhavi near the Dharmambudi tank, I have the honor to state that no watchman had been employed at any time by the Municipality exclusively for the purpose of watching the pond in questio

and there is no precedent to employ a separate watchman for a single well. There was a watchman formerly for the Dharmambudi tank who used to look after this pond also. But as the tank water ceased to be utilized for drinking purposes and, as it is not being filled as in former years, it was considered that the continuance of the watchman was unnecessary and the post was accordingly abolished. As the pond is a public well resorted to by many persons, the exclusive use of it by the Mandiram alone cannot be arranged to the inconvenience of the public in General A Sign board has been put up against the water being polluted. The City Police has been requested to see that the water of the well

well is not boiled by those who resort to it and the Conservancy Staff has also been directed to keep the well clean.

2 The enclosure of the Memorandum is herewith returned.

I have the honor to be
